

MEMORY BUILDERS

Brooke Stoerner

Project Coordinator

Brooke is a native Houstonian and graduated from The Art Institute of Houston in 2009 with a Bachelor of Fine Arts degree in Interior Design.

In 2011, Brooke began working for a Houston-area real estate developer where she honed her skills by using her knowledge of market trends to create spec packages for over 25 townhome builders that consisted of all interior & exterior finishes. Everything the builder needed to start construction and ultimately sell the home.

Brooke joined Memory Builders in 2017 as the Project Coordinator and is looking forward to furthering her knowledge of the custom homebuilding industry but is most excited to collaborate with architects and homeowners on all aspects to bring the project to life.

She lives in the Cypress, Texas with her husband James and their son Mason.
